Product sourcing.
Project supply.

Lerova International Trade Limited is a Hong Kong-registered international trading company. We bring your product requirements, supplier questions and order details together so the proposed products and responsibilities are clear before you agree a supply.

Windows & doors	Furniture & furnishings	Project-specific sourcing

What Lerova coordinates

Requirements	Bring drawings, dimensions, quantities and finish choices into a product brief that suppliers can review.
Supplier liaison	Relay product questions and request available model-specific information before confirming an option.
Written supply scope	Clarify proposed products, timing, delivery responsibilities and support terms with you and the supplier.

COMPANY DETAILS

Lerova International Trade Limited

Hong Kong | BRN / UBI 79472365

Incorporated 24 December 2025

Company details & registry search guidance: lerovahome.com/company-profile/

Products selected around the brief.

We welcome enquiries across these categories. Product options are reviewed against intended use, quantities, documentation and delivery requirements.

Windows & doors

Aluminium windows, sliding and folding doors, and glazing configurations sourced through our manufacturing supplier in China.

PRODUCT TYPE	MODEL	DETAILS TO DISCUSS
Inward / outward opening windows	**BLS75**	Opening direction, dimensions, glazing and finish
Tilt-and-turn windows	**BLP75**	Opening configuration, hardware, glazing and finish
Folding doors	**BL93**	Panel arrangement, opening size, threshold and finish

Selected references from the supplier's 2025 catalogue. Current availability and supporting documents are confirmed for the proposed model and configuration.

Furniture & furnishings

Tell us which furniture items your project needs, their dimensions, materials, finish, quantities and intended use. Sourcing options are reviewed against that brief.

Project-specific sourcing

For products outside these categories, send a description or reference image, quantity and destination. Supplier suitability and sourcing feasibility are reviewed before a proposal.

Supplier project experience.

Our window and door supplier has undertaken projects in Australia, China and the United States. These supplier-provided photographs show a selection of their work.

Large sliding-door openings

A glazed opening between an apartment interior and its balcony.

Residential window arrangements

Fixed and opening panels following the shape of a room.

Glazed residential enclosure

Dark-framed glazing with opening awning windows.

Windows during construction

Window units in place while building work continues.

Photographs show our manufacturing supplier's work. Lerova's role is product sourcing, supplier liaison and supply coordination. Suitability for a new project is reviewed against the proposed configuration, required documentation and intended application.

From enquiry to agreed supply.

01 **Understand the brief**

Review products, quantities, drawings, destination and target dates. Clarify missing information.

02 **Review sourcing options**

Discuss product details, supplier responses and available technical documentation.

03 **Agree the supply scope**

Confirm specifications, quotation, payment terms, responsibilities, timing and support terms in writing.

04 **Coordinate the order**

Maintain supplier and buyer communication through the agreed production and supply stages.

What to agree before ordering

Products & price	Models, quantities, finishes, technical documents, payment terms and items included in the quotation.
Delivery	Destination, freight, customs, unloading and site-access responsibilities.
Installation & support	Installation scope, warranty provider and the process for reporting damage or product issues.

Start with your brief.

Email your product list, drawings, quantities, delivery location and target date. International project enquiries are welcome.
